

## MISCELLANEOUS TOOLS

### CAST SPREADER - ONE-INCH JAW

The right design for cast removal. Interdigitated teeth widen the narrow slot created by cast cutter. Teeth will not pinch patient's skin or operator's fingers. Durable stainless steel. Can be easily used with one hand.

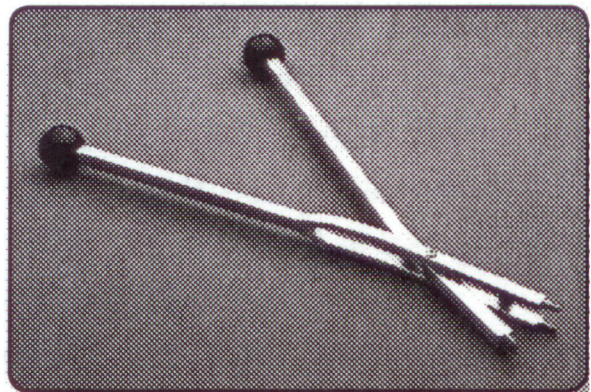

Ref.: PEL-82

### CAST SPREADER - FOUR-INCH JAW

For the simple removal of larger body casts. Unique interdigitated teeth widen the cut and will not pinch. Four-inch jaw opening. Stainless steel construction for durability. End knobs for a reinforced grip.

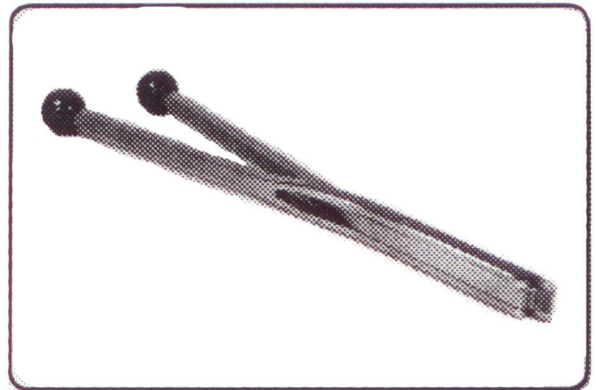

Ref.: PEL-83

### CAST SPREADER - HOSPITAL MODEL

Solid stainless steel. Designed for large or thick casts. Two-handed spreader for better control and leverage for larger cast. Length: 18 1/2".

Ref.: PEL-4183-126

### REFILLABLE CHINA MARKER

Ultimate marker for all surfaces. Easy push-button advance. Non-toxic pigments. Single color refills available. Includes 1 of each color refill.

Ref.: AC-T96000      Refillable China Marker and one of each of the refills below.
